

## KPI 1: Feed cost per bird

Use the worksheet below to calculate your feed cost per bird. Note that we have assumed conventional feed is being used, the default prices can be overwritten if you are using GMO or organic feed, or enter your own feed costs.

Number of birds placed: \_\_\_\_\_

Number of birds processed: \_\_\_\_\_

Type of feed	Bulk 500 kg (tote) or bagged 25kg	Price per unit	Number of days on feed	Units consumed	Total for flock
Poultry starter	Bagged Bulk				
Poultry grower	Bagged Bulk				
Poultry Finisher	Bagged Bulk				
<b>Total Feed cost (flock)</b>					
<b>Feed cost per bird processed</b>
