

Transportation Time and Hydro Costs

When thinking about costs of production, it's easy to forget about indirect costs like transportation and hydro. Indirect costs can make up 15-20% of your cost of production, and potentially more when you factor in time spent in transport. You can use the next section to estimate labour hours related to transportation.

You can't improve it if you don't measure it. Estimate your transportation and hydro costs below.

Initial equipment purchases related to transportation (e.g. refrigeration unit for truck)

Fuel and vehicle maintenance

Hydro
